This was such a wonderful surprise. I purchased the game as part of a bundle, perhaps expecting an hour or so of mindless entertainment. Instead, I got an addicting little time management game that had me going until I 100% completed the game, not just the achievements, but the entire game. Granted, it is fairly simple and most levels can be beat within a few tries at most, but it still had me coming back for more. The story is silly with no real takeaways there. There are 2 different types of mini games to break up the time management side of things. One is a Hidden item puzzle where you have to quickly find all the listed objects in the given time, while the other was a ball drop game where you had to match 3 of the same color balls to move on. They were pretty easy, but nice little diversions. Overall, I give it a solid 7/10. Fun to play, nice in short bursts, and plenty of levels to keep you busy.. Freaking awesome! Despite the bad jokes, and whatever the hell was going on in the background all of a sudden, this movie is actually pretty cool. Thanks to my friend who told me about this video. I watched this on YouTube, and on Steam. I definitely recommend this to my other friends! :D

So many mindf\*\*\*ed 80s graphics and effects, cool 80s chrome style text, a raptor that shoots lasors out of its eye, a copycat and giant version of Thor who is a rip off of Marvel's Thor, and the 80s anime like cartoon animation, I love all that! I see a lot of stuff in this video that don't make sense, but you know what I don't care, I enjoyed every moment in this video anyway! :)

Also the 80s. I love the 80s! Except I didn't exist at that time. :( Simple, funny, good visual appeal and HD resolution - what more do you need to have a casual relaxing time off?. <https://www.youtube.com/watch?v=Gu7sLTVzQXE>

[Quite a fun game. with some frustration thrown in.](#)

[I've played around half an hour of this game so far and am about to fire it up again.](#)

[Since it's early access you have to understand there are some issues. such as the draw distance of the mines. Whether this was a choice to make the game harder. I'm not sure but given how quick the character moves it causes me a little more frustation.](#)

[Character movement is my one main criticisms of this game and well worth a look at by the devs. Everything moves so fast but you have to be careful and move so slowly.](#)

[Recommended and will be checking this game out more as it's updated.](#)

[For more impressions and gameplay check out the link above.. Great Gameplay.](#)

[Awesome Music \(Though it is just the one song...:\(](#)

[I love shooting giant white balls at the pink triangles.](#)

[I am looking forward to more updates and things like upgrades.](#)

[.Bad physics. bad graphics. glitchy.. After playing this game for about 5 minutes I want to kill myself](#)

- 
1. Download game.
  2. [Registrate...why?](#)
  3. Enter custom match
  4. Put bomb
  5. Die cause of it
- Will play again 10/10. game will not load

steam vr becomes unresponsive when trying to load, refund requested. Besides the ♥♥♥♥♥♥♥♥ ship designer nothing works. It is a heavy work in progress title. WHY THE ♥♥♥♥ DO YOU LIMIT the amount of money for ship building instead of letting us do crazy overloaded builds?

Besides that I get blown the fk up every time I load the single player campaign. In Deathmatch against bots the bots dont even spawn they just resemble explosion spawns and item drops... wow. WTF is wrong with this game.

Will edit when I catch any improvements.. Cool concept but not so great execution. I really love the idea of an adventure game where I'm always being stalked by a monster. It's kindof like a gothic version of Alien: Isolation. Unfortunately the translation is really poor and it's oftentimes hard to know where to go or what to do.. I guess I will make this a positive review since I recommend playing the demo before buying the game. I'm not picky about how a game controls ordinarily, but I am now. Using hook-swing in the air momentarily halts your momentum, which I am really uncomfortable with. I can probably get used to that over time, or maybe you will find the controls more comfortable.
