Browsing: 30 gb off EOS 90D: RAW File Format, Free Lightroom 5 Templates EOS 90D:-Canon took a little while to confirm that the new Canon EOS 90D is still the best. While cameras with Wi-Fi and external storage have some value, the EOS 90D provides some useful answers to what Canon wants its enthusiast shooters to have. This piece of canon camera is one of the best selfie shooters. Firstly, the canon EOS 90D is the successor of the EOS 80D. It has a new high-resolution 45MP CMOS sensor that is also used on the new EOS 90D. Though the resolution is low compared to its big brother (24MP), the APS-C sized sensor can capture more light and has a larger depth of field. This makes for a more responsive and authentic photos. The other upgrade is new 1.0 crop factor that provides a similar result as a 1.6x crop factor on a full frame. This can be confirmed by our DxOMark review. For professional photographers who need a larger 18x zoom lens, the EOS 90D comes with a constant f/2.8 lens with a maximum focal length of 200mm. This makes it a powerful tool for travel photographers who need a zoom lens that covers a large focal range without the weight or impact on the image quality. On the rear, the camera features a Dual Pixel CMOS AF system that will further refine focusing speeds. The autofocus performance has also been improved for better focus tracking on moving subjects. The EOS 90D has an impressive ISO range of 100 to 25600, expandable to ISO 51,200. As with the 80D, the EOS 90D features a new Wireless Wi-Fi system that allows users to remotely control the camera from their smartphone or tablet. The Wi-Fi system also offers a lossless, secure and high-speed upload of photos to a smartphone or tablet. Users can also directly connect it to their smartphone through Bluetooth for easy sharing. On the front, it's equipped with a 1″ touchscreen which is slightly dimmer than the screen on the 80D. It also brings the added benefit of a Live View function, for getting a live preview from the screen in the viewfinder. On the back, it offers optical image stabilization to ensure greater sharpness from your photos. This is standard on top-tier
